1. "The Government penicillin plant near Poona is due to come on stream in December 1954.
2. "Ethical drugs are readily available to the general public in India. It is my understanding that prescriptions for them are required.
3. "During my entire 2 1/2 year stay in India, I saw no articles for sale of any type which were designated in any way as being of either Soviet or Satellite manufacture. Soviet propaganda is not too evident except that practically the only radio programs outside of India which can be tuned in are beamed in from Moscow."
